## FOR IMMEDIATE RELEASE

### **ANCHOR PARTNERS WITH UNITED LEASING, INC.**

Anchor Industries Inc. has partnered with United Leasing, Inc. to offer its popular, custom-designed leasing programs for tent rental companies. Leasing continues to be an affordable method for acquiring new tent equipment. Anchor continues to offer competitive rates and terms through United Leasing, Inc.

United Leasing, Inc. has been in business for over 46 years. They are ranked as one of Indiana's Top Private companies and offer over 120 years of collective experience. According to a recent customer satisfaction survey, 95% of respondents strongly agreed they received prompt, accurate and courteous service from United Leasing, Inc. Anchor is confident in their abilities and certain United Leasing will be a tremendous asset to the tent rental industry.

"Anchor introduced leasing to the tent rental industry in the early 1980s. At that time, a tent rental company's growth was limited to what they could pay for in one season. For the first time tent rental companies could finance the equipment and make monthly payments over several seasons allowing the equipment rental income to pay for the equipment. It has been exciting to watch how leasing has changed the industry and helped our customer's grow. Today, more than 80% of businesses lease some or all of their equipment." says Bill Riat, Vice President of Credit & Collections at Anchor.

Anchor Industries Inc. has been a leading manufacturer of outdoor recreational and industrial fabric products since 1892. Headquartered in Evansville, Indiana, Anchor has over 400,000 square feet of manufacturing space and employs nearly 400 skilled craftsmen.
