

SCALE THE HEIGHTS OF THE CLEARSPAN MARKET

VENUESERIES

The Anchor Venue Series is the perfect choice to take your company into the expanding Clear Span market.

Large unobstructed spaces with rich wall, door and floor options provide a fitting stage for the most spectacular party, sporting and corporate events. Strong rigid construction empowers the most creative event planners and opens the door to profitable long-term rental opportunities.

Real Business Value

Expand your business into a new and profitable market segment

Take advantage of a rental segment that is growing even in a difficult economy

Position your company to capture large high-profit, high-profile party, sporting, corporate and long term rental events

The Right Choice

Extendible Rafter Design

- Transportability – 24' box truck vs. flatbed
- Warehouse logistics – smaller, lighter components
- Configurability – more rental options from smaller inventory

A Partner That Understands The Transition From Traditional To Clearspan Rentals

- Experience and expertise to help with the changes in logistics and business methods
- Full range of products – the right solution for every need

Made In The USA

- Lower lead-times
- Shorter reaction times
- No currency exchange issues

Single System Delivers Full Solutions From 9 M to 18 M

- Supports all glass wall, hard wall and flooring options
- Compatibility that protects investment and delivers higher returns

Engineered To The Latest Codes

- The only system in its class certified to ASCE 7-05 on 4M uprights
- Security and peace of mind for your business and customers
- A significant competitive advantage given relentlessly increasing code-compliance requirements

THE SHORTEST PATH TO THE PEAK OF SUCCESS

THE BEST PARTNER FOR EVERY STAGE OF YOUR CLIMB TO THE PEAK OF SUCCESS

STRONGER YET MORE MANAGEABLE

CREATIVE DESIGN AND ENGINEERING RESULTS IN SMALLER AND EASIER TO HANDLE COMPONENTS WHILE STILL MEETING THE LATEST CODES

TRANSPORTABILITY FLEXIBILITY COMPATIBILITY WAREHOUSEABILITY

The only product in its class certified to ASCE 7-05 on 4M uprights

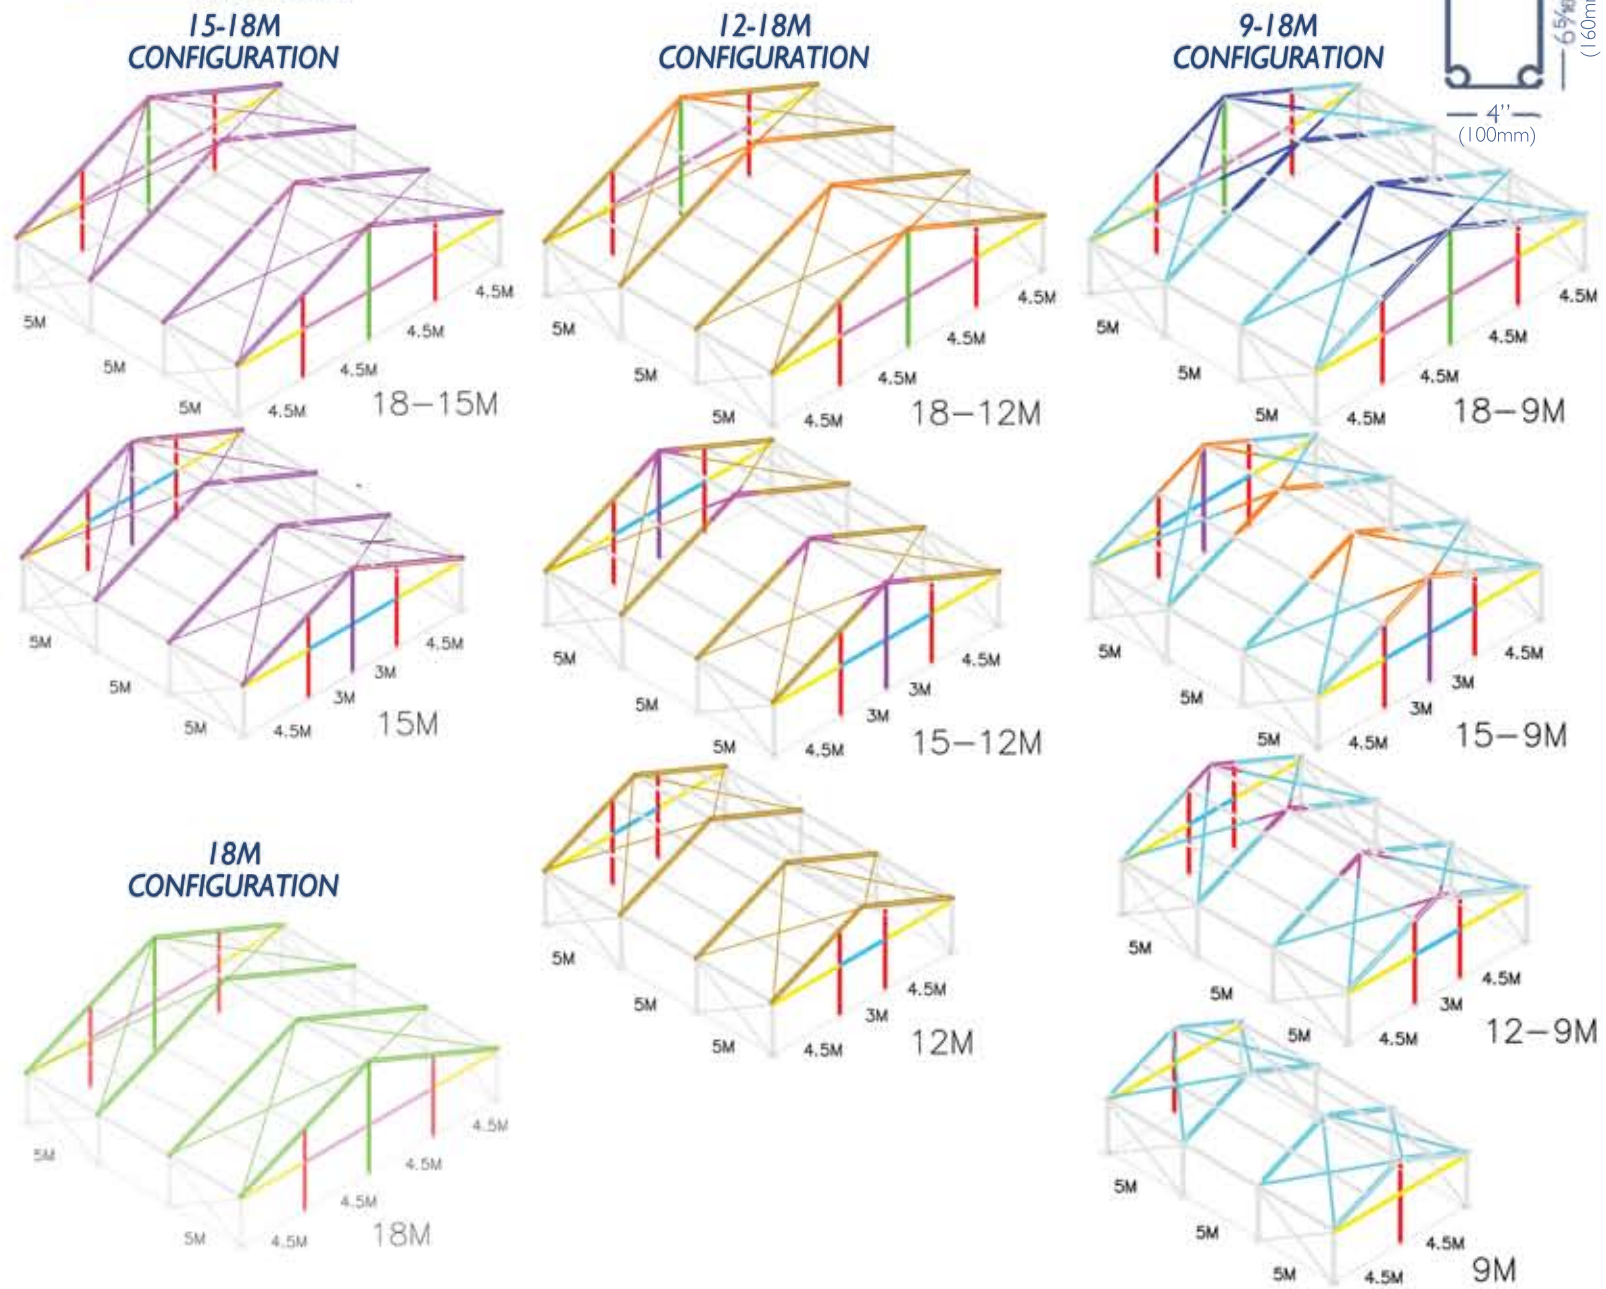

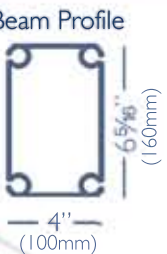

More configuration options from fewer components • Simplified logistics ease the transition into clear span structures
